Things to keep in mind:

- Numbers are allowed in hashtags. However, spaces and special characters, like \$ or %, won't work.
- You can use up to 30 tags on a post - though it's not recommended to go too heavy with them. Keep it laser focused instead. If you include more than 30 tags on a single photo/video, your comment won't post.
- Ideal # is 9-10 hashtags so you don't look spammy!
